NEWTON COUNTY INSTRUCTIONS TO RESPONDENTS

ENGINEERING SERVICES FOR CDBG DISASTER RECOVER FUNDS (HURRICANE HARVEY/DR-4332 DISASTER DECLARATION)

The following requirements and specifications shall be in addition to the other requirements contained herein and shall supersede the other requirements where applicable.

1. GENERAL INFORMATION:

Newton County is requesting Statements of Qualifications (SOQ) from a competent engineering firm, registered to practice in the State of Texas, who can adequately demonstrate they have the resources, experience and qualifications to perform Engineering activities and related services, pursuant to Texas Government Code, Chapter 2254, Subchapter A. These services are being solicited to assist the County in its application and project implementation of a CDBG – Disaster Recovery grant award by the General Land Office (GLO) Community Development and Revitalization. The application will support infrastructure in the County. *Note that pre-funding services are not eligible for grant reimbursement and fees for post funding activities will be negotiated during the application phase.*

The Contract consists of the Instructions to Respondents, Scope of Work, Standard Terms & Condition, Special Requirements and the Professional Service Agreement, as well as all other documents included in the Request for Statement of Qualifications Number as stated in the Request for Statement of Qualifications Package Checklist, and any drawings (if applicable) and other specifications, as well as addenda issued prior to execution of the Contract. The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations, or agreements, either written or oral. The Contract may only be amended or modified under the terms of this Contract. Newton County may make partial or complete awards to one or more vendors (if applicable) whichever is in the best interest of the County.

- The Firm awarded the contract, will work with the Grant Administrator and County in identifying eligible projects for consideration in the application submitted.

The projects are envisioned to have the Engineering Firm as the Prime consultant. If the Prime Engineering firm does not have an environmental division within their company, the Prime shall select a team of professionals capable of providing the required services in an efficient manner in the best interests of Newton County and to provide successful, and on-budget project delivery. Information on all proposed sub consultants and / or subcontractors should be included in the response.

Firms and / or individuals should have past experience with federally funded programs.

Firms must include verification that your company as well as the company's principal is not listed (is not debarred) through the System for Award Management (www.SAM.gov). Please include a date stamped print out of the search results.

The County reserves the right to negotiate with any and all persons or firms submitting proposals, per the Texas Professional Services Procurement Act and the Uniform Grant and Contract Management Standards.

Historically Underutilized Businesses (HUBs) and Minority or Women Owned Businesses (MWBEs) are encouraged to participate in the RFQ processes. Although Newton County does not certify HUB/MWBE vendors, Newton County recognizes the certifications of other governmental entities. If you are certified by a government entity, please include your certificate in your RFQ submittal.

Newton County is an Affirmative Action/Equal Opportunity Employer.

PLEASE REVIEW THE STATEMENT OF QUALIFICATIONS (SOQ) SUBMITTED IN RESPONSE TO NEWTON COUNTY'S REQUEST FOR CLARIFICATIONS. CHECK WHICH PROJECT(S) YOU ARE SUBMITTING FOR.

The contract award is contingent upon the receipt of CDBG-DR funds. If no such funds are awarded, the contract shall terminate.

2. SELECTION PROCESS

The Statement of Qualifications (SOQs) will be used to rank the respondents and determine a short list for Engineering, Environmental clearance and related services. In addition, the SOQ will be used for reference material throughout the selection process. Once the short list has been determined, there may be an oral interview/ presentation session scheduled for the highest ranked firms. The presentation should demonstrate the team's experience in providing Engineering, Environmental clearance and related services.

From the SOQs and interviews, the Evaluation Committee will determine the most highly qualified firm. After the selection process has been completed, a detailed scope of services will be developed between the successful firms and Newton County and a price proposal will be requested. The price proposal generated should reflect substantially the same composition and level of involvement as presented in the Statement of Qualifications.

If a mutually agreeable cost/price proposal cannot be negotiated, Newton County will formally end the negotiation and proceed to select and negotiate with the next most highly qualified firm(s) on the basis of demonstrated competence, experience and qualifications.
