The 2019 Budget provides for planned expenditures, net of contingency appropriations, for all operating funds totaling \$15,158,357. Contingencies in the amount of \$400,000.00 in the General Fund have also been appropriated. Such contingent appropriations are under the control of the Commissioners' Court and shall be distributed by that Court.

Annual budgets are adopted for all funds except for certain special revenue funds where funds are designated for specific purposes as identified in the grant award documents, which adopts grant year or project length financial plans.

It is our opinion that the provisions of revenues and expenditures in this budget are adequate and that funds will be on hand to pay the obligations as set forth. All funds are expected to have sufficient resources to operate within the budgets as proposed. It is intended that each County department will operate within its total budget allocation.

BUDGET PROCESS

BUDGET PROCESS

Basis of Accounting – The County complies with Generally Accepted Accounting Principles (GAAP) and applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

The modified accrual basis of accounting is used. Under this method, revenues are recognized when they become measurable and available. Measurable means the amount of the transaction can be determined, and available means the amount is collectible within the current period. Expenditures are recorded when the liability is incurred except for unmatured interest on general long-term debt, which is recognized when paid.

Basis of Budgeting – The Newton County budget is prepared on a modified accrual basis consistent with generally accepted accounting principles and budgetary control takes place at the account category level. Under the modified accrual basis of accounting, revenues are recognized for budgetary purposes when they are received or become measurable (for example, property tax revenue is measurable when the statements are produced) and expenditures are recognized when the related fund liability is incurred.

Revenue Estimates – The County Auditor provides revenue estimates for the upcoming fiscal year. Estimates are based on trend analysis, current and/or pending legislation, and economic conditions.

Budget Administration – The adopted budget is prepared and approved in line item format, however, with the adoption of the budget, administration will be at the category level. This method of budgetary control will allow for an individual line item (e.g. Office Supplies) to exceed the appropriated amount as long as the category does not exceed the total amount appropriated for the category. Any transaction that would cause the category to exceed the budgeted appropriation will require a budget transfer.

Budget Transfers – Budget transfers fall into two different categories, those that can be approved by the department head and those that require approval of the Commissioners Court prior to any expenditure of funds.

- A) Certain expense categories are grouped together into a “major category” for purposes of budget transfer administration. Operating Expenses, Contract Agreements, etc, are grouped into major category “Total Operating Expenses”. Transfers between the categories within Total Operating Expenses in a single department may be approved by the department head and do not require further approval by the Commissioners Court.
- B) All other transfers require approval of Commissioners Court via a budget transfer request form submitted through the Auditor’s Office.
